The distances listed are for the most common route taken but may vary on the day. Some train travel may be involved on some rides. Bring your MYKI.

All rides will be conducted at a pace to suit the fitness level of the riders involved.

Where the word (Train) appears before the venue, we use it enroute to the venue, or if it appears after the venue, we use it on the return journey.

There are various routes that can be taken to each of the venues above. The ride leader for the day will select the route.

We also have Away from home rides which require travel by car or train to the starting point or for the return journey. Some of these rides overlap listed rides.
